

EGFULFILL — Page Guidelines / Hướng dẫn sử dụng theo trang

User guidelines for every page, organised by role. Each file is bilingual: **English first, then Tiếng Việt**.

Hướng dẫn cho từng trang, sắp xếp theo vai trò. Mỗi tệp có **hai ngôn ngữ: Tiếng Anh trước, Tiếng Việt sau**.

Role / Vai trò	File	Who / Dành cho
Seller / Người bán	seller.md	Shop owners + their team members
Operator / Nhân viên vận hành	operator.md	Factory floor — production up to the scan
Warehouse / Kho	warehouse.md	Custody + spend (labels, POs, finance)
Designer / Thiết kế	designer.md	Artwork + digitizing board only
Admin / Quản trị	admin.md	Full access to every board and tool

Roles at a glance / Tổng quan vai trò

- **Seller** manages their own shop: orders, products, stores, wallet. Never touches the factory floor.
- **Operator / Nhân viên vận hành**: works production. Their zone **ends at the scan** — no money reverts, no Finance.
- **Warehouse / Kho**: everything an operator does **plus** custody + money (labels, purchase orders, Finance).
- **Designer / Thiết kế**: the design board and their own earnings **only**. Never sees which seller a job belongs to.
- **Admin / Quản trị**: everything.

Note / Lưu ý: what each person actually sees also depends on **Settings** → **Permissions** (per-role page visibility) and, for seller team members, the surfaces their owner shared in **Settings** → **Team**.
